Limited Lifetime Warranty! Easy Online Ordering!

Developed for harsh lighting environments, this attractive aluminum housing mounts one Night Stik LED tube light in nearly any location. Traditional bulb housings and lenses will be cracked, broken or completely torn away long before this housing gives up the fight. Designed to deflect impact and elements, this assembly ships complete with a rubber mounting gasket, wire grommets and stainless steel fasteners.

The included Night Stik LED light, features super bright LED technology with 80% energy savings over conventional lighting and an unbelievable 5 year warranty. By utilizing high output LEDs the desired area will be filled with an abundance of crisp white light ensuring you'll never be left in the dark again!
