

CYLINDER SIZING CHART

This cylinder sizing chart will help your identify the holder carrier size (and color-coded products) that will protect department cylinders. Once you have determined a holder carrier size, select any additional accessories, like Compartment Bases, Utility Boxes, Station Racks or Station Hand Carts. Select only accessories that match the color of the holder carrier you selected.

Example: If the customer was running Luxfer SCBA cylinders (Part No. L65M) and wanted 4 holder carriers, 1 utility transport box (that can hold 4 holder carriers) and 1 station hand cart, the corresponding holder carrier and accessories would be color coded dark gray with part numbers ending in LG.

GREEN colored tabs relate to HC-MN Mini-Oxygen D cylinder holder carrier

GRAY tabs relate to HC-SM Small, which normally fits 4500psi 30min

ORANGE tabs relate to HC-MD Medium, which normally fits 4500psi 45min

DARK GRAY tabs relate to HC-LG Large, which normally fits 2216psi 30min

DARK ORANGE tabs relate to HC-XL XLarge, which normally fits 4500psi 60min
